Totals:

Module Total: 14,540.00

Optional Crystal Reporting software is required for developing custom reports with the NMX system but not general system operation. Crystal Reporting is NOT included with this proposal.

Additional modules, hardware, software, customization, custom reports, configuration services, training, network licensing, data conversion and other services will be quoted separately upon request by the department.

All data for interface options must be available to the RedAlert System in readable format. This proposal does not include any additional charges that may be required by 3rd party vendors to provide their interface component or other services. Please contact Alpine to discuss each specific interface as necessary.

The cost for the CAD Interface is an estimate. Once details are finalized with the County/Smart COP as far as building an interface, finalized pricing will be provided.

This proposal will utilize standard Monroe County GIS data unless other data is submitted for review and approved by Alpine.

Mobile Data requires the following:

- All hardware and network equipment, hardware and network configuration.
- Mobile Data Computers.
- Air cards.
- Verizon wireless EVDO cellular service (or equivalent).
- Mobile GPS Module requires mobile computers to receive GPS data.

Additional modules will be calculated into annual support.

Proposal valid for 90 days.

J. Cost Summary

A - Modules	14,540.00
B3 - Installation and Customization	3,960.00
C - System Training	840.00
D - Network Cost	495.00
F - Data Conversion	400.00
Total:	20,235.00
